It is a 35 minute drive from Tambor and than a 15 minute hike each way. Bring good shoes, swimwear and something to drink.

Whether or not you are going to take a swim, you will surely enjoy the lush forest that surrounds the waterfall. Keep your eyes peeled and try to spot one of the many colourful birds or other delightful animals.

Once you have had your fill of the falls, you will hike back and get another chance to appreciate the supreme beauty of this amazing area.

Recommended: For adults and children older than 6 years without difficulties of rappelling down waterfalls and able to do hikes over rocky underground.

Doing an additional hike of 10 minutes, you will get to 2 more waterfalls
